**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

In order to keep competition fare, we the people support local competitive carriers. We oppose the USTelecom petition.

We only have 2 other carriers that have both overcharged and continue to do so to others. This unfair price gouging is unethical.

Affordable broadband is important to local businesses, schools and residents. Students should not have to worry about price hikes. I am proud to live in an area that provides fiber service to the community at a very competitive price.

At this day and age, the US has fallen behind other countries with free broadband throughout the city and even subways such as South Korea, Japan. Due to fair competition, theres numerous carriers and pricing becomes very affordable and competitive.
